

# Cobalt-60 Product Information

## Specifications

Radioisotope	Co-60
Half-life/Daughter	1925.28 days to nickel-60
Decay	<a href="#">Decay Radiation Information (NNDC)</a>
Chemical Form	Nickel-plated pellets (1 mm x 1 mm)
Available Specific Activity	>11 TBq/g (>300 Ci/g)
Radionuclidic Purity	>99%
Production Route	Neutron capture in targets of reactor-grade cobalt metal
Processing	None
Primary Container	Welded, special form stainless steel shipping containers
Availability	Request a quote for further information
Unit of Sale	Curies
