

Product Information

Specifications

Vanadium-48

Half-Life/Daughter	15.9735 days to titanium-48
Decay	Decay Radiation Information (NNDC)
Chemical Form	Vanadium in 0.1 N HCl
Radionuclidic Purity	>99.5% (at time of shipment)
Production Route	Proton irradiation of ^{nat} Ti
Processing	Dissolution and ion chromatography
Primary Container	Screw cap plastic vial
Availability	Special order
Unit of Sale	Millicuries

Other Information

CoA provided
